

with caravaning police cars doing everything this car did. In some cases they cut through alleys, drove over private property, jumped over the sidewalk, and the cruisers did the same thing. One of the cruisers had its undercarriage severely damaged. This van then went through an intersection and a teacher driving through the intersection had his car struck. He was killed and he left six orphans and a widow. I have documented the number of deaths and injuries which had occurred in Omaha alone. The property damage, cases of the wrong car being pursued, shots being fired at the wrong car, and entering residences, shots fired in neighborhoods where children are playing, and think about the prospect of a speeder being pursued, even if he or she was guilty of the great crime of having a suspended driver's license and the police officers managed to kill the driver. What would happen to the speeding car with the driver dead and nobody to control it. These chases do occur in residential and thickly populated areas. I say again, I would like to believe that your vote against amending 65 was because you feel something ought to be done about these high speed chases. I will repeat to you again what Colonel Karthauser told me and I have the tape in my office and any of you who want to hear it can hear it, that he was approached by those people from law enforcement agencies which supported this bill in Committee and they tried to get him to join them in reversing their position and attacking the bill. He said the state patrol would not be a party to such a thing. I'm moving that LB 65 be advanced to E and R for engrossment.
